Dear Selection Committee Members,

It is with great pleasure that I recommend Adam Meurer for consideration in creating artwork for your community.

I have had the opportunity to work with Adam, over the past seven months, in my capacity as a Board member for the Public Arts Initiative of Egg Harbor, Wisconsin. Adam was invited to exhibit his work in *Celebrate! Wisconsin Sculptors 2017*, as part of the temporary artworks in public spaces event in Egg Harbor, Wisconsin.

Upon accepting the invitation, Adam created a work of art that was specific to our region of the country. We are nestled in a village in Door County, Wisconsin, along the shoreline of the bay of Green Bay. Adam created a ten-foot steel and cast resin abstracted rendition of a boat's mast. In addition to creating a site-specific piece, he was kind and professional throughout the process! Adam provided all of the needed materials for contract agreements, publication and advertising well within our time frame. Upon delivery of his artwork, Adam came prepared with all of the needed tools and hardware to install his piece. He is able to work cooperatively, and with humor, with art professionals and public works' crews.

Adam is an emerging artist, with varied and advanced technical knowledge and ability. I feel given opportunities he will become an accomplished public artist. You would be in good fortune to work with Adam.

I am happy to answer any questions that may arise and to provide further information.

My very best,
Rebecca Carlton

To whom it may concern,

Over the last twelve years I have had the pleasure of collaborating with Adam Meurer innumerable times both professionally and creatively.

I can say, hands down, that Adam is one of my most favorite people on this planet to work with. He is congenial, reliable, and goes above and beyond what is asked of or required of him every single time. There is no incident where Adam hasn't exceeded my creative and professional expectations, and he constantly amazes me with the fresh and innovative ideas he is constantly bringing to the board.

His collaborative nature makes him a dream to work with on projects that require many subcontractors and someone who can not only understand each trade and the process, but communicate and coordinate it all. Adam is that person. He has an exquisite and rare knowledge of the design/build process which makes him unique as an artist, as he is able to understand how each part of a team on something like a public installation holds an equal and imperative role. He is also on a more topical role, prompt, funny, reliable, professional, and fun to work with, personality assets that add joy and a sense of loyalty to any project requiring a team.

I would be happy to elaborate on the many merits of Adam if you would like additional contact. I recommend him in the highest regard.

Warmly,

A handwritten signature in black ink, appearing to read 'Liz A. Syrrakos', with a long, sweeping horizontal line extending to the right.
